

# Transportation Element

## Framework Goal

Coordinate transportation investments with the pace of growth and development to ensure Renton maintains an efficient, balanced, multi-modal transportation system.

## Policy Summary

- Provide a new multimodal level of service standard that is more straightforward to implement
- Reference newer plans and studies, for example, Renton Trails and Bikeways Master Plan and Impact Fee Rate Study
- Update land use assumptions consistent with the Renton Land Use Element and VISION 2040 Regional Growth Strategy
- Organize, streamline, and update policies to address:
  - Maintenance, Management and Safety
  - Demand Management
  - Supporting the Growth Strategy
  - Pedestrian and Bicycle Modes
  - Greater Options and Mobility
  - Linking Land Use and Transportation / Land Use Assumptions
  - Service & Facility Needs - Including Level of Service Standards & Concurrency
  - Financing and Investments - including Reassessment Strategy
  - Intergovernmental Coordination
  - Renton Airport
